Activation and Usage Requirements

This service is a prepaid service, and you must activate it by dialing 611 from your Access Wireless handset. To keep your account active, you must use your Lifeline service at least once during any 30-day period by completing an outbound call, sending a text message, using data, purchasing additional minutes or data from Access Wireless, answering an inbound call from someone other than Access Wireless, or by responding to a direct contact from Access Wireless confirming that you want to continue receiving Lifeline service from them. If your service goes unused for 30 days, you will no longer be eligible for Lifeline benefits and your service will be suspended (allowing only 911 calls and calls to the Access Wireless Customer Care center) subject to a 15-day cure period during which you may use the service (as described above) or contact Access Wireless to confirm that you want to continue receiving your Lifeline service from them.

Important Information About the Lifeline Program

This i-wireless LLC d/b/a Access Wireless offering is a California LifeLine-supported service. Only eligible consumers may enroll in the program and proof of eligibility is required for enrollment. This program is limited to one benefit per household, consisting of either wireline or wireless service. A household is defined, for the purposes of the LifeLine program, as any individual or group of individuals who live together at the same address and share income and expenses. LifeLine service is non-transferable. Violation of the one-per-household rule constitutes a violation of the FCC rules and will result in the customer's de-enrollment from the LifeLine program. LifeLine is a government-assistance program and consumers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment, or can be barred from the program. Coverage limitations such as weather, terrain, signal strength, and/or service outages may affect wireless phone service, quality or access to E-911 and or 911 in the event of an emergency. By removing your wireless cell phone from a residence that does not have other phone services, residents may not have a way to make 911 calls during an emergency.

When you apply for California LifeLine Service, you will be given the allotment of minutes, text messages, and data provided by your rate plan. When i-wireless receives notification from the California LifeLine Administrator regarding approval of your California LifeLine application, the company will notify you. Activation fee will be reimbursed by the California LifeLine program up to twice annually only for customers either (1) establishing California LifeLine service for the first time, or (2) switching from one California LifeLine telephone service provider to Access Wireless. When customers apply for Access Wireless service, the Company will apply a company-funded credit to the customer's account and the customer will not have to pay any portion of the activation fee for which California LifeLine Program reimbursement is not available. If you are denied the California LifeLine benefit, Access Wireless will change your service to a prepaid service plan, and you will have the option of discontinuing use of the phone or purchasing additional i-wireless airtime and selecting an available i-wireless prepaid retail plan.
